Think
Modular,
Think
Velcraft.

Velcraft was built on a simple idea —
that furniture should not just fill a space,
but define it.

What began as a pursuit of precision craftsmanship
has evolved into a design-driven approach
to modern living. Every piece is shaped
with intent, balancing form, function,
and lasting durability.

From contemporary homes to refined interiors,
Velcraft creates wardrobes that are
not only functional, but deeply personal.

wardrobe collection

Revolutionary and Rebellious – This range of wardrobes from the house of **velcraft** represents the coming of age for wardrobe design. Encapsulating just about every nuance between Modern and Minimalistic to Traditional and Timeless, this range transforms what is essentially a storage unit into an extension of the person using it. In the same breath, recessed and inbuilt handles provide a silent touch of excellence that is a design purist's dream come true. Through this range, we endeavor to give a befitting personal touch to every room. After all, the structures that secure our belongings should effortlessly showcase our style as well.
